

JOHN DOE

SYNTHETIC / FICTIONAL RESUME

Hyderabad, Telangana, India | john.doe@example.com | +91 90000 00000 | linkedin.com/in/johndoe | github.com/johndoe

PROFESSIONAL SUMMARY

Cloud and DevOps Engineer with 2+ years of experience automating, scaling, and maintaining mission-critical cloud infrastructure on AWS. Skilled in Docker containerization, Kubernetes orchestration, Terraform Infrastructure as Code (IaC), CI/CD pipelines with GitHub Actions, and Linux systems administration. Dedicated to implementing robust reliability, observability, and security across distributed environments.

TECHNICAL SKILLS

Cloud Platform: Amazon Web Services (EC2, S3, VPC, IAM, EKS, RDS, CloudWatch, Route53)

Containers & Orchestration: Docker, Docker Compose, Kubernetes, Helm, Containerd

CI/CD & Automation: GitHub Actions, GitLab CI, Jenkins, ArgoCD

Infrastructure as Code: Terraform, AWS CloudFormation, Ansible

Scripting & OS: Bash/Shell, Python, Linux (Ubuntu, Debian, CentOS)

Monitoring & Logging: Prometheus, Grafana, ELK Stack, AWS CloudWatch

EXPERIENCE

DevOps Engineer — CloudNexus Technologies | Jul 2024 – Present

- Provisioned and managed multi-environment AWS infrastructure (VPC, EC2, RDS, S3) using modular Terraform code.
- Configured CI/CD deployment pipelines using GitHub Actions to automate container build, testing, and ECS deployment.
- Managed Kubernetes (EKS) clusters, deploying Helm charts, configuring Ingress controllers, and establishing auto-scaling policies.
- Set up centralized monitoring and alerting dashboards using Prometheus and Grafana, reducing incident MTTR by 35%.

Cloud Operations Associate — InfraScale IT | Jun 2023 – Jun 2024

- Maintained 50+ Linux servers, performing automated patch management, security hardening, and disk utilization checks.
- Authored Bash and Python automation scripts for scheduled database backups, log rotation, and SSL certificate renewal.

PROJECTS

Automated Multi-Region Kubernetes Infrastructure — Terraform, AWS EKS, Helm, GitHub Actions

- Designed complete Infrastructure-as-Code repository provisioning production-ready EKS clusters with automated ingress.

Zero-Downtime Deployment CI/CD Pipeline — Docker, GitHub Actions, AWS ECS, Nginx

- Engineered blue/green deployment workflow with automated vulnerability scanning using Trivy and Docker image optimization.

EDUCATION

Bachelor of Engineering in Information Technology | Osmania University | 2019 – 2023 | CGPA: 8.2 / 10

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- Certified Kubernetes Administrator (CKA) — Coursework Completed
