EXPERIENCE

Frontend React Developer — PixelForge Digital | Jun 2024 – Present

- Developed client-facing web application features in React and TypeScript, delivering accessible and responsive layouts.
- Migrated legacy state architecture to Redux Toolkit, simplifying asynchronous data fetching and state persistence.
- Built a reusable design system containing 30+ UI components using Tailwind CSS and Storybook.
- Optimized bundle size and asset loading, improving Google Lighthouse performance score from 68 to 94.

Junior Frontend Developer — WebCraft Studio | Jun 2023 – May 2024

- Converted Figma UI/UX designs into pixel-perfect, responsive HTML5/CSS3/React templates.
- Integrated REST APIs for authentication, user profiles, and real-time dashboard analytics.
- Implemented unit tests for core React components using Jest and React Testing Library.

PROJECTS

Collaborative Task Management Dashboard — React, Next.js, TypeScript, Tailwind CSS, Redux

- Created full-featured project board with drag-and-drop task organization, team member assignment, and dark mode.

Analytics & Data Visualization Portal — React, Chart.js, Tailwind CSS, Axios

- Engineered real-time financial metrics dashboard with interactive filtering, date-range selectors, and CSV export.
